About Us

Shyam Elevators Pvt. Ltd., we elevate living and commercial spaces with cutting-edge vertical transportation solutions. Built on a foundation of precision engineering, strict safety protocols, and uncompromised quality, we manufacture, install, modernize, and maintain world-class elevator systems tailored for residential, commercial, and industrial infrastructure.

Our mission: to deliver smooth, energy-efficient, and secure mobility solutions that elevate human experience and complement modern architectural design.

Collaboration with R D Elevators: Partnering with R D Elevators expands our execution capability, installation network, and technical bandwidth. This alliance blends our manufacturing expertise with specialized expertise in high-capacity lifts, goods elevators, and rapid-response preventative maintenance frameworks across complex commercial and residential projects.

Technical Features

- 01  Transverse Methodology Roping System
- 02  Overload Device for Weight Monitoring
- 03  AFR Intelligence (Automatic fault rectification intelligence control system)
- 04  CANBUS Communication Technology (For instant fault info and elevator status)
- 05  Double Click Call Cancel Option in Car (For mistaken call)
- 06  Encoder Unit in Machine (Direct landing distance control with level accuracy)
- 07  Passenger Based Auto Tuning Device
- 08  Automatic Rescue Device (Lift cabin will reach the nearest floor in case of power failure)
- 09  Manual Rescue Device (Inbuilt brake release mechanical lever for rescue operation)
- 10  Full Height Infrared Screen Sensor for Passenger Safety
- 11  Over Travel Protector (Electro-mechanical limits on ground and final floor)
- 12  Triple Safety Mechanical Inter-Lock System for All Doors
- 13  Automatic Phase Changer for Phase Reversal
- 14  Auto Cut Off for Low Voltage and High Voltage
- 15  Energy Efficiency Eco Mode for Power Saving up to 80%
- 16  Inverter Based Emergency Light ON the Time of power failure
- 17  Heavy Duty Buffer Spring Provided in Pit
- 18  Self-lubricating Oil Tank for Guide Rails
- 19  Oil Collector (For collecting wastage oil of guide rail in pit)
- 20  Fireman Switch and Alarm at Ground Floor Landing
